

# THE LIBERTY RECHARGEABLE:

## Designed For Quality Hearing and the Quality of Life.

The Liberty Rechargeable is made with the finest materials and the latest technology to ensure quality craftsmanship and performance.

Changing our charger box from wood to plastic will help conserve our trees, while providing users with a durable and attractive case in which to charge and store their hearing instruments.

The Rechargeable contains a nickel-cadmium rechargeable cell. Since cadmium is a heavy metal, the cell must be disposed of properly. If you wish to dispose of this product, return it to:

MAGNATONE, P.O. BOX 180964, CASSELBERRY, FL 32718-0964
